China to Set Up Special IP Courts in Beijing, Shanghai and Guangzhou

The Standing Committee of the National People's Congress passed "the Decision on establishment of intellectual property courts in Beijing, Shanghai and Guangzhou". In addition to cases in these cities, the IP courts could conduct cross-regional jurisdiction on IP cases during the forthcoming 3 years.

The courts will focus largely on civil and administrative lawsuits regarding patents, new plant varieties, integrated circuit layout designs and technological knowledge, as well as handle appellate cases regarding copyright and trademark disputes.

Appeals against the verdicts of the IP courts will be heard in local higher people's courts. Presidents, vice presidents and chief judges of these courts will be appointed by local legislatures.

The courts will also establish a professional forensic investigation system to determine technical facts.

Review: SIPO Established 19 PPH Pilot Programs with IP Offices Globally

According to Patent Examination Administration Department of Patent Office under the State Intellectual Property Office (SIPO) of China, SIPO has established 19 PPH (Patent Prosecution Highway) pilot programs with overseas IP offices.

The regional offices that SIPO established PPH programs with are Japan, USA, Germany, Russia, Denmark, Finland, Mexico, Austria, Korea, Poland, Singapore, Canada, Spain, Portugal, UK, Iceland, Sweden, Israel. In addition, SIPO, European Patent Office (EPO), Japan Patent Office (JPO), Korean Intellectual Property Office (KIPO), and U.S. Patent and Trademark Office (USPTO) launched the three-year-long IP5 PPH pilot program on January 2014.

Latest numbers showed that by the end of 2013, Chinese applicants have filed 825 PPH applications, of which 197 are regular PPH applications, 628 are PCT—PPH applications.

Chinese Patent Filings Abroad on Big Rise

The World Intellectual Property Organization (WIPO) said in a report that the growth of Chinese patent filings abroad has increased significantly since 2000. The majority of patent applications abroad by Chinese residents targeted the United States with close to 50,000 patent applications between 1970 and 2012, followed by Europe, Japan, the Republic of Korea, and Canada.

In addition, according to SIPO, in the first half year of 2014, China had dealt with 11,243 international patent applications submitted through Patent Cooperation Treaty (PCT), increasing by 20.5% compared with that in the first half year of 2013.

ZTC Won Four Straight Cases against 337 Investigation

United States International Trade Commission (ITC) conducted the final verdict on patent infringement case of InterDigital (IDC) suing Zhongxing Telecommunication Equipment Corporation (ZTC), believing that ZTC did neither violate the “Section 337” nor infringe the patent right of IDC. Up to now, ZTC had won the final victory in all the “337 Investigation” launched by IDC against several Chinese companies including ZTC, which makes ZTC become the only Chinese enterprise winning the four straight cases from “Section 337” at present.

China, US Step up IPR Cooperation

2014 China's IPR Overseas Exchange was the fourth year for the event to be held in the US to help the outside world better understand China's efforts in IPR protection and seek international cooperation.

The Chinese delegation comprises of experts from a number of government agencies such as Ministry of Commerce, the Supreme People's Procuratorate, General Administration of Customs, State Administration of Industry and Commerce, SIPO, while the US participants are from US Trade Representative office, US Patent and Trademark Office and representatives from US research institutes and companies such as IMB and Proctor and Gamble (P&G).

The Chinese delegates talked about the country's efforts in combating IPR infringement and piracy, enforcement of the legal system, and more specifically, copyright protection, the implementation of the trademark law and the introduction of Geographical Indications (GI). Mark Cohen, attorney-advisor of the US Patent and Trade Office, expressed the US side will continue to work with China and strengthen exchanges through the existing bilateral mechanisms. The intensive and various exchange and cooperative activities underway will help boost the mutual understanding and trust on the IPR issue.

Close Cooperation between the UK and China on Intellectual Property

Ms. Baroness Neville-Rolfe DBE CMG, the UK's IP Minister, began a week-long visit to China. The visit aims to further develop the two countries' collaboration on intellectual property issues. The focal point of the visit is the 2nd UK-China IP Symposium.

The Symposium provided a platform for detailed exchanges between the UK and Chinese IP agencies on intellectual property policy, as well as offering businesses an opportunity to build stronger relationships with their international counterparts.

Later in that week, the China-Britain Business Council ("CBBC") and Alibaba Group announced the signing of a Memorandum of Understanding ("MOU"). Under the MOU, Alibaba agrees to work with CBBC member companies to remove product listings subject to takedown notices from companies alleging that they infringe their intellectual property rights. CBBC will provide guidance to its member companies on how to use Alibaba's existing IP protection and notice and takedown systems, and will cooperate closely with Alibaba's Internet Security team, putting CBBC member companies with particular concerns directly in touch with them where appropriate.
